Info about files
course_registered_by_all_students.csv
This contains the list of all courses for which he/she is registered.
course_master_dont_open_in_excel.csv
This contains the LTP for every course. Ensure you open in libreoffice/notepad++/vscode/etc. DONT open in Excel of it will convert LTP to dates.
course_feedback_submitted_by_students.csv
This contains the feedback by students, this you will check which subject feedback is not submitted by students.
course_master_for_Backup.zip
This contains the course_master_dont_open_in_excel.csv, in case you opened in excel, replace that file with this one.
studentinfo.csv
personal info about student
Output File:
course_feedback_remaining.xlsx **Strict Excel file**.
This is self explanatory, for adding info in this file, you will need to take help of studentinfo.csv and course_registered_by_all_students.csv

The algorithm.pdf explains the logic too along with the video.
